Submission is an outstanding example of evaluation of technology to secure feedback from users.	Submission is an outstanding example of evaluation of technology to secure feedback from users.	Submission is an outstanding example of evaluation of technology to secure feedback from users.	Submission is an outstanding example of evaluation of technology to secure feedback from users.

Each row of this rubric can be tied to a program outcome, thereby increasing the number of data points for analysis at end of project, or semester, or program.

Should we standardize our rubrics, or at least our rating scales? Should we rely on percentage scores?
